About Me

Frontend Developer with over a year of experience in developing responsive, scalable web applications using React.js and TypeScript. My technical expertise includes state management with Zustand and Redux Toolkit, RTK Query, API integration using REST, GraphQL, and WebSocket, client-side routing and SSR with Next.js. I am also skilled in utilizing UI libraries such as Material UI, NextUI, and Tailwind CSS. Known for attention to detail, collaborative work style, and a commitment to continuous learning.

Work experience

Trainee Developer **Feb 2025 - Present**

EPAM Systems

- Studied JavaScript, TypeScript, SCSS, and executed tasks on an educational platform project.
- Implemented search, sorting, and filtering in a course gallery focusing on user experience and responsive design.
- Used a custom routing system for SPA navigation without page reloads.
- Built a map integration feature for the Contacts page, improving location accessibility.

Frontend Developer (NDA Project) **11.2024 - 03.25**

Freelance

- Developed UI components with React, TypeScript, and TailwindCSS based on Figma designs.
- Implemented client-side logic and dynamic routing using React Router.
- Managed global state using Redux Toolkit, enhancing data flow and application stability.
- Integrated with REST APIs, improving data handling and reducing error states.
- Wrote unit tests with Vitest and React Testing Library, ensuring robust functionality.

Frontend React Developer **07.2024 - 11.2024**

Rolling Scopes School

- Developed high-performance SPAs using React, TypeScript, enhancing application speed and responsiveness.
- Refined code quality by collaborating with senior developers, achieving project goals efficiently.
- Facilitated smooth project workflows by managing task environments via GitHub.
- Supported testing and debugging efforts to ensure robust, error-free functionality before deployment.

Intern Frontend developer **01.2024 - 06.2024**

Rolling Scopes School
