## Skills

### Languages & Frameworks:

- JavaScript, ES6
- TypeScript
- React.js, Next.js
- HTML, CSS

### State Management & Routing:

- Redux Toolkit
- RTK Query
- Client-Side Routing

### APIs:

- WebSocket, REST API, GraphQL

### UI & Styling:

- Material UI

- Tailwind CSS

### Tooling & Testing:

- Webpack, Vite
- Jest, Vitest
- Git

### Methodologies:

- Scrum, Kanban

### Soft Skills:

- Communication, Teamwork

## Languages

- English B2
- Ukrainian
- Russian

## About Me

Frontend Developer specializing in React with one year of experience in JavaScript (ES6+), TypeScript, and React, focused on delivering high-quality, efficient code for dynamic web applications. Skilled in using modern front-end tools and frameworks, including Redux and API integration, to create seamless, responsive user experiences. Proven ability to work effectively in remote, deadline-driven environments with a strong attention to detail and a commitment to continuous learning. Seeking opportunities to contribute as a developer and advance within a collaborative and innovative team setting.

## Work experience

### • Intern Frontend Developer in RS 07.2024 - 11.2024

- Contributed to a client-facing project as a junior developer, focusing on building responsive components, integrating APIs, and optimizing performance.
- Collaborated with senior developers and team leads to ensure code quality and align with project goals.
- Enhanced front-end features using React, TypeScript, and Redux, and handled state management, improving user experience and efficiency.
- Supported testing and debugging efforts to ensure robust, error-free functionality before deployment.

### • Intern Frontend React developer 01.2024 - 06.2024

#### REST/GraphQL Client: React, Next.js, TypeScript, Vitest, Vite

- Implemented user authentication, multi-language support (i18n), and error handling for seamless user experience.
- Led task tracking, code reviews, and team communication on GitHub project board.

#### Star Wars Heros App: React, Next.js, RTK Query, Redux Toolkit, TypeScript

- Optimized client-side routing with React Router, enhancing navigation speed.
- Utilized Redux Toolkit Query for efficient API calls and state management, Reduced API call latency.
- Enhanced user experience through effective theme control with Context API.

#### eCommerce Application: React, TypeScript, Jest, MUI, Vite

- Collaborated on an eCommerce app, managing products with commercetools API, and designed a detailed product page with add/remove functionality.
- Managed project tasks and milestones using GitHub and Scrum methodologies.

#### Real-Time Chat Apps: TypeScript, Vite, ESLint, Prettier, Husky, WebSocket

- Developed a WebSocket-based chat application

#### Educational Puzzle Games: TypeScript, Vite, ESLint, Prettier, Husky

- Developed an interactive mini-game to enhance English language skills through sentence assembly with multiple difficulty levels and hint options.

#### Nonograms Game: JavaScript, CSS, HTML

- Designed and implemented a classic game — Nonograms with multiple levels and templates, save/load features.

### • Entrepreneur in trade 2000-2023

I honed skills in responsibility, punctuality, attention to detail, interpersonal communication, and conflict resolution. Seeking new, exciting, and inspiring challenges and opportunities for growth, I decided to leave the trade industry and dedicate myself to studying and developing my skills in frontend development.

## Education

**React** certificate  
The Rolling Scope School (July 2024 - Sept. 2024)

**Frontend JavaScript developer** certificate  
The Rolling Scope School (Nov 2023 - June 2024)

**Specialist degree in Foreign Languages**  
Yuriy Fedkovych Chernivtsi National University (2004)

**Bachelor's degree in Finance**  
Bukovyns'kyy Derzhavnyy Finansovo-Ekonomichnyy Universytet (2004)
