## About Me

As a dedicated and detail-oriented Junior Frontend Developer with one year of hands-on experience, I am eager to contribute to innovative projects and enhance my skills. My goal is to leverage my expertise in JavaScript, React, and TypeScript to drive company growth, continuously improve my technical abilities, and contribute to team success.

## Education

**React**
The Rolling Scope School (July 2024 - Sept. 2024)

**Frontend JavaScript developer**                    certificate
The Rolling Scope School (Nov 2023 - June 2024)

**Specialist degree in Foreign Languages**
Yuriy Fedkovych Chernivtsi National University (2004)

**Bachelor's degree in Finance**
Bukovyns'kyy Derzhavnyy Finansovo-Ekonomichnyy Universytet (2004)

## Work experience

- **Intern frontend developer**                    11.2023 - 07.2024

  **Star Wars Heros: React, Next.js, RTK Query, Redux Toolkit, TypeScript, Vitest**
  - Implemented client-side routing using React Router for seamless navigation, improving navigation speed.
  - Utilized Redux Toolkit Query for efficient API calls and state management, Reduced API call latency.
  - Enhanced user experience through effective theme control with Context API.

  **eCommerce Application: React, TypeScript, Jest, MUI, Vite**
  - Collaborated with a team to develop an eCommerce platform.
  - Managed project tasks and milestones using GitHub and Scrum methodologies.
  - Implemented product management features utilizing commercetools API.
  - Designed and Developed a detailed product page and implemented add/remove product functionality.

  **Car Racing Game: TypeScript, Vite, ESLint, Prettier, Husky**
  - Developed a single-page application for managing a collection of cars and their engines.
  - Implemented real-time race statistics display using the Fetch API.
  - Managed asynchronous tasks and server communication.
  - Achieved seamless user experience with real-time updates and low latency.

  **Fun Chat: TypeScript, Vite, ESLint, Prettier, Husky, WebSocket**
  - Built a real-time chat application with WebSocket protocol for live messaging.

  **Puzzle Game: TypeScript, Vite, ESLint, Prettier, Husky**
  - Developed an interactive mini-game to enhance English language skills through sentence assembly.
  - Implemented multiple difficulty levels and hint options.

  **Nonograms Game: JavaScript, CSS, HTML**
  - Designed and implemented a classic game — Nonograms with multiple levels and templates.
  - Integrated save/load feature.
  - Developed a high score table, improving player retention.

  **Coffee Shop: JavaScript, CSS, HTML**
  - Developed a two-page responsive website.
  - Implemented responsive design for screen widths down to 380px.
  - Added interactivity to pages using JavaScript, enhancing user engagement.

- **Entrepreneur in trade**                    2000-2023

  I honed skills in responsibility, punctuality, attention to detail, interpersonal communication, and conflict resolution. Seeking new, exciting, and inspiring challenges and opportunities for growth, I decided to leave the trade industry and dedicate myself to studying and developing my skills in frontend development.
