Skills

Languages & Frameworks:

- JavaScript, ES6
- TypeScript
- React.js, Next.js
- HTML, CSS

State Management:

- Redux Toolkit
- RTK Query

Routing & API Integration:

- WebSocket, REST API, GraphQL
- Client-Side Routing

UI Libraries:

- Material UI, NextUI
- Tailwind CSS

Tooling & Testing:

- Webpack, Vite
- Jest, Vitest
- Git

Methodologies:

- Scrum, Kanban

Soft Skills:

- Communication, Teamwork
- Attention to Detail

Languages

- English B2
- Ukrainian
- Russian

About Me

Frontend Developer specializing in React with one year of hands-on experience in JavaScript, ES6, TypeScript, and API integrations. Proven ability to develop efficient, user-centered applications with modern front-end tools, including Redux, RESTful APIs, and GraphQL. Known for attention to detail, collaborative work style, and a commitment to continuous learning. Seeking a role where I can contribute my expertise and further hone my skills in a dynamic team environment.

Work experience

Frontend React Developer   07.2024 - 11.2024

Rolling Scopes School

- Developed responsive, high-performance SPAs using React, TypeScript, and Vite.
- Collaborated with senior developers to refine code quality and meet project goals through efficient API integrations and robust state management with Redux.
- Facilitated team communication and task management via GitHub, ensuring smooth project workflows and effective code reviews.
- Supported testing and debugging efforts to ensure robust, error-free functionality before deployment.

Intern Frontend developer   01.2024 - 06.2024

- Enhanced authentication, multi-language support, and error handling to deliver a smooth user experience in a REST/GraphQL client app.
- Streamlined task tracking and team coordination, managing GitHub boards and leading code reviews.
- Optimized API efficiency and reduced latency with Redux Toolkit Query, and improved navigation speed with client-side routing in a Star Wars Heroes app.
- Drove eCommerce project milestones using commercetools API, designing dynamic product pages with add/remove functionality.
- Built real-time and interactive features in a WebSocket-based chat app and educational puzzle games, enabling user-friendly, real-time engagement.

Rolling Scopes School Projects

REST/GraphiQL Client: React, Next.js, TypeScript, Vitest, Vite

Star Wars Heros App: React, Next.js, RTK Query, Redux Toolkit, TypeScript

eCommerce Application: React, TypeScript, Jest, MUI, Vite

Real-Time Chat Apps: TypeScript, Vite, ESLint, Prettier, Husky, WebSocket

Educational Puzzle Games: TypeScript, Vite, ESLint, Prettier, Husky

Nonograms Game: JavaScript, CSS, HTML

Entrepreneur in trade   2000-2023

I honed skills in responsibility, punctuality, attention to detail, interpersonal communication, and conflict resolution. Seeking new, exciting, and inspiring challenges and opportunities for growth, I decided to leave the trade industry and dedicate myself to studying and developing my skills in frontend development.

Education

React   certificate

The Rolling Scope School (July 2024 - Sept. 2024)

Frontend JavaScript developer   certificate

The Rolling Scope School (Nov 2023 - June 2024)

Specialist degree in Foreign Languages

Yuriy Fedkovych Chernivtsi National University (2004)

Bachelor's degree in Finance

Bukovyns'kyy Derzhavnyy Finansovo-Ekonomichnyy Universytet (2004)
